

Cedar Pergolas

A pergola is a garden feature with vertical posts and a lattice type top that is designed for visual appearance or to allow climbing plants to be trained.

Pergolas

Pergola designs are typically covered areas large enough to sit or gather under for refreshing shade on a cool day. Common posts for Pergolas are 4x4 or 6x6 and come in a variety of grades and millings.

SIZE	GRADE	MILLING
4" x 4"	TIGHT-KNOT	S4S
to		ROUGH SAWN
12" x 12" or larger	CLEAR	S4S
		ROUGH SAWN

Pergola Construction Hardware

We recommend using [Simpson Strong Drive Timber Screws](#) for all arbor and pergola construction. The Strong Drive Timber Screws are made from 316 Stainless Steel with a Double-barrier coating to resist corrosion and staining
