

Doug Fir Timbers

Clear Douglas Fir finish is highly valued for its strength, durability and fine appearance. It is manufactured into a variety of high-end products including flooring, paneling, millwork, doors, stepping and finish lumber. The natural beauty and warmth of clear Douglas Fir is always in style and will provide years of enjoyment and satisfaction. Our timbers are dried in state-of-the-art conventional kilns that utilize a computer-controlled low pressure steam system.
